

Directions for Using Read:OutLoud Software

1. Click on Solo icon on desktop.
2. On the screen that pops up, click on any Learner, click on OK, and type in the password: 123456.
3. At Student Central, click on the Read:OutLoud icon.

4. Cancel the Add eText window.
5. Open the website you want to have read to your students.
6. Highlight the text you would read to your students.
7. Click on the speaker icon on the taskbar at the top and the passage will be read to your student. Click the speaker icon again to stop the reading.

8. You have 4 voice options; there are 2 male and 2 female voices. The default voice sounds good, but you may have a student who would respond better to a male voice. Look at the toolbar and click on Speech. Click on Voice Settings. Choose a male voice. You will also note that you change the rate, pitch, and volume for any voice.
